Greetings fellow Cowboy Shooters! Yesterday turned out to be a great day for a shoot! It started off cool but with help of Burly Bills portable wood stoves we were nice and toasty! We had 34 shooters join us, including several brand new shooters and a lot of visitors. Burly Bill has received almost 20 phone calls from the article in the paper and the announcement on K95.5fm! In fact, one of our new shooters today (Gunnar) was here because his Mom (Rosetta) heard it on the radio! Gunnar shot 5 stages and his Mom shot several and they sure had a good time!

It was great to have our friends from the OKC Gun Club - Roys Creek Dan and his lovely wife Highland Scottie - join us today. They have a great shooting facility and its always a blast to shoot there. Check out their web site for Land Run details, which is coming up in April. www.okcgunclub.org

Congrats to our match winner - Roys Creek Dan - who was also clean! Way to go RCD!! His lovely wife Highland Scottie was also clean - and they were the only two that were! Maybe there's something in the water in OKC??!!

We held a short meeting after the shoot regarding 2011 Ruckus - details will be sent out in another email.

I will be posting new pictures & videos this week so check our website.

Be safe and see you at the next shoot Jan 31st - which will be the 5th Sunday.

Greetings friends! Here are the scores from the last 2 ITSASS shoots. I was not at the match on Wed but from all accounts they had a great time! However, I was at today's shoot and it was COLD!! But I guess all 28 of you that showed up today already knew that! We had a "Team" shoot today and CowBo wrote the stages for us. Boy, I have NEVER shot anything like them! Example - at the Corral, he had a "cow" set up with real milk! At the beep you had to "milk" the cow - really, you had to milk the cow before you could shoot. Most of us have never had that experience before and it was a hoot! At the Livery we had to put a golf ball through a 6 foot tube, a team member had to catch it in a cup at the other end before they could shoot! At Red Castle Fort he had a roulette wheel set up. To start off, the RO spun the wheel and the number it landed on was the shooter number. Once the first shooter shot he spun the wheel to see who was next. It was actually possible for just one shooter to shoot the whole stage - just depended on the lady luck! So, three cheers up to CowBo for such creative and fun stages!

Reminder - ITSASS is offering a Range Office 1 course on Sat Feb 12 @ 1200. This is a great opportunity for all new shooters as well as shooters that don't have their RO 1 pin yet. The more shooters that take this course the safer we will all be! Please let me know if you plan on attending (if you haven't already).

An update on Kangaroo Pete - he is well on the road to recovery from his back surgeries, in fact he and Belle Mimi came out today and got there just when we were leaving but just in time to go to lunch! Pumpkin Roller reports that Plinky is at UCLA awaiting her brain surgery tomorrow. He said they got some inspiring news about the prognosis at her appointment. Please remember both of them in your prayers.

Hope to see you on a warmer day!
